The Bachelor of Arts in Economics introduces students to modern economics within the context of a broad liberal arts curriculum. The degree connects economics to other social science disciplines and the humanities, providing an even broader liberal arts education than the Bachelor of Science in Economics. With over a year of free electives, the BA in Economics offers students the flexibility to add another major or minor and design a program in line with their interests.

## COURSEWORK

- Behavioral Economics
- Economic Development
- Economics of Happiness
- Economic Ideas
- Economic Policy
- Economics Seminar
- Macroeconomics
- Microeconomics
- Labor Economics
- Using Big Data to Solve Economic and Social Problems

## CAREER OUTLOOK

The BA in Economics prepares students for careers across a variety of fields, including domestic and international business, public policy and economic research. Employment opportunities are wide-ranging, from roles within government agencies, banks and corporations to consulting firms, think tanks and social service organizations. Graduates with a BA in Economics also have a solid foundation for law school, an MBA or other graduate programs.
